This document is and shall remain the property of Solo Water Pty Ltd. The document may only be used for the purposes for which it was provided. Unauthorised use of this document in any form whatsoever is prohibited.

1 PURPOSE

The purpose of this Pricing Schedule is to provide information and guidance to customers relating to the current fees and charges for Solo Waters services for the 2018/19 financial year.

All fee and charges are GST Free unless stated otherwise.

1.1 Scope

This Pricing Schedule covers information for customers regarding the following:

- Property, Building and Connection Fees
- Fixed Service and Volumetric Usage Charges
- Residential Miscellaneous Charges

1.2 Objective

Solo Water will endeavour to provide up to date schedules for pricing and relevant information regarding our operations, products and services.

2 PROPERTY, BUILDING AND CONNECTION FEES

The following table identifies fees for connection to Solo Water Infrastructure:

RESIDENTIAL PROPERTY, BUILDING & CONNECTION CHARGES			
SERVICE	DESCRIPTION	UNIT	CHARGE
Property Service Diagram	Supply of diagram showing the drinking water, recycled water and sewerage connection points on the lot.	Per lot	\$54.00
Assessment of Building Plans for new building & structures (stamping plans)	Assessment of zone of influence and connections requirements for any proposed building works on the lot. Once approved the plans will be stamped by Solo Water.	Per application	\$150.00

	Disconnect recycled water system	Per disconnection	\$140.00
	Disconnect sewerage system	Per disconnection	\$140.00

3 FIXED SERVICE AVAILABILITY AND VOLUMETRIC USAGE CHARGES

Charges for drinking water, recycled water and sewerage services are broken up into a fixed service availability charge and a variable water usage charge.

The fixed service availability charges relate to the cost of provision of infrastructure to the lot and are payable from the date the service is provided to the lot, whether you have built a house or not.

A summary of the fixed service availability charges are provided in the following Table.

FIXED RESIDENTIAL SERVICE AVAILABILITY CHARGE			
SERVICE	DESCRIPTION	UNIT	FIXED CHARGE
Drinking Water	Fixed Service Availability	Per Quarter	\$80.75
Recycled Water	Fixed Service Availability	Per Quarter	\$62.50
Pressure Sewer	Fixed Service Availability	Per Quarter	\$172.50

In addition to the fixed charges the variable water usage charges apply once you move into your house and start using water. We do not charge a variable charge for the pressure sewerage service.

A summary of the variable water usage charges are provided in the following table.

VARIABLE RESIDENTIAL VOLUMETRIC WATER USAGE CHARGES			
SERVICE	DESCRIPTION	UNIT	USAGE CHARGE
Drinking Water	Bulk Supplier Usage Charge (Central Coast Council)	\$/kL	\$2.29
	Local Supplier Usage Charge (Catherine Hill Bay Water Utility)	\$/kL	\$0.71
	Total Drinking Water Usage Charges	\$/kL	\$3.00
Recycled Water	Local Supplier Charge (Catherine Hill Bay Water Utility)	\$/kL	\$2.40
